OBJECTIVE

Seeking an entry-level Node.js developer role to apply my technical expertise in JavaScript and Node.js. Dedicated to delivering efficient and high-quality solutions, **I aim to contribute effectively to a dynamic development team and further enhance my skills in web development.**

WORK EXPERIENCE

MERN Stack Intern

Feb 2023 - Aug 2023

SF Consultant

Bhopal

- During this **enriching six-month internship**, I had the valuable opportunity to acquire a diverse range of new skills and knowledge.
- **Developed a website** using modern technologies and industry best practices, effectively showcasing the company's brand and objectives.
- **Implemented a wide range of features on the dashboard**, enhancing user experience and providing valuable insights to improve data visualization and management.
- **Created the frontend of a user-friendly Point of Sale (POS) management dashboard**, optimizing sales tracking, inventory management, and customer interaction
- **Gained valuable experience in utilizing version control systems, ensuring efficient code management** and collaboration within the development team.
